

Workshops Prospectus 2011-12

Half-day workshops

We can offer half-day workshops linked to Student Feedback via Screen Capture Digital Video: Resolving '*un dialogue de sourds*'.

Each workshop is designed to be self-contained, and we offer these workshops as single stand-alone events.

'Screen Capture Digital Video Taster workshops':

1. **Why provide video feedback**
2. **Personalisation of feedback**
3. **Practical sessions**

Workshop Outlines

For each workshop, we present relevant 'Intended learning outcomes' to provide a clear indication of what participants should expect to achieve from the workshop. We provide an indicative 'Outline programme' to illustrate the principal components of each workshop (though the activities and timings can of course be adjusted to suit local needs and requirements).

Handouts and slides

We suggest typical 'Handout materials' for the workshops to give an idea of the extracts from our materials. We would be pleased to supply electronically, usually by putting the extracts which proved most relevant up on my website temporarily for a few days after the workshop,

We don't provide handout copies of PowerPoint slides, as a matter of principle but normally make the slides we actually used at any given workshop available on my website for a few days after any particular workshop.

Keynotes

We are pleased to do keynote sessions on any of the theme of Student Feedback via Screen capture Video, for example in plenary sessions at conferences, or as special large-group sessions in university or college staff-development programmes.

Contact

To organise an event please contact Nigel Jones, Senior Lecturer in Information Systems, University of Wales Institute Cardiff. **Tel:** +44 (0) 29 2041 6395. **Fax:** +44 (0)29 2041 6930 **Email:** njones@uwic.ac.uk
